

THINGS YOU SHOULD KNOW Sun City Hilton Head

From Your Board of Directors

SC TV NEWS

There is presently misinformation spreading throughout the community from third hand sources regarding the SCTV News Program and its reported demise. Here are the FACTS that you need to know:

FACT: SCTV News has NOT been closed by the Association, Pulte, Board of Directors, or Wentworth Management. You may watch SCTV News daily at 7am/pm and 10am/pm on TW Channel 5, Hargray Channel 238 & online at www.schca.com .

FACT: SCTV News has many dedicated volunteers who are staying the course to provide quality news to the Community in a timely fashion. Although recently some volunteers did resign, they did so of their own choosing...they were NOT fired.

FACT: SCTV News is an Association-owned asset; established with guidelines that have been followed for the past year, leading to quality news and information shows being delivered to the community on a weekly basis.

FACT: The Association, Pulte, the Board of Directors, nor Wentworth Management ever threatened to close SCTV News, or censor its content. All that was required was that SCTV News follow the guidelines established.

FACT: All Resident Board Members, Clifford Hudsick, Barbara Lenta, and Wes Pipkin agreed with the decision to hold SCTV News to the guidelines established in 2008.

FACT: There was a conflict over reporting a story of a resident's personal citation and hearing outcome to the community. This story did not follow the guidelines outlined and thus was not permitted. As you can imagine, a resident who receives a citation and follows up with an appeal to the Covenants Committee for a hearing would not like to have their personal information spread community-wide. The disagreement on the ability to report specific case information was what led a few of the SCTV News volunteers to resign.

FACT: The Association does not want SCTV News, Committees, Clubs, Neighborhood Reps., or any other entity representing the Association, to report matters that could result in legal action up to and including defamation, libel, or slander.

FACT: The misinformation in question was brought before the community by way of an email trail. This email trail was propagated by someone who openly admitted that they had not spoken to Hal, Judy, Walt, or others including Sue Sweeney and Barbara Lenta. This email trail only stirred up a situation with false allegations and false information.

Before believing negative, toxic reports that are unfounded and false in nature, in the future please contact the proper individuals to get the truth.

Thank you,

Sue Sweeney
